Failure to comply will result in loss of the right to admission.

The procedure will be considered complete within 90 days from the day the list of admitted candidates for the academic year 2026/2027 is published on the University website, as indicated in article 6.

ARTICLE 9 – Scholarships

The scholarships, which number is indicated in the specific PhD Programmes Tables, will be awarded according to the positioning of candidates on the relevant final merit lists.

In the case of candidates of equal merit, a decision will be made on the basis of the candidates’ financial situation, determined in accordance with the Italian Prime Minister’s Decree of April 30th, 1997 and subsequent amendments. Candidates of equal merit will be requested by e-mail to submit for the purposes of evaluating their financial situation:

- Receipt of submission of the Single Sworn Declaration for calculating the ISEE bracket (DSU); this must be forwarded within the final deadline of two days from the following day the e-mail was sent. Failure to comply will result in loss of the right to admission.
- The formal I.S.E.E. (Indication of Equivalent Financial Situation) by I.N.P.S.; this must be forwarded within the final deadline of five days from the following day the e-mail was sent. Failure to comply will result in loss of the right to admission.

In the event of a tied ISEE indicator, the youngest candidate takes precedence.

The annual amount of the scholarships is € 17.000,00 (barring subsequent regulatory amendments) for all PhD programmes, with the exception of the PhD programme in “Industrial Innovation Engineering”, for which the annual scholarship amount is € 19.021,00 (barring subsequent regulatory amendments). These amounts are subject to the I.N.P.S. social security contribution under the separate management fund.

Study scholarships are automatically renewed when PhD students continue in the following year, unless a motivated ruling to the contrary is made by the Academic Board.

Study scholarships will be paid in monthly deferred instalments.

PhD scholarships cannot be combined with other scholarships or other forms of financial assistance paid by the University and/or the State, with the exception of those designed to be integrated with PhD student research activities, for periods spent abroad.

In any case, the prohibition of double funding as stipulated by Regulation (EU) No. 2021/241 of February 12th, 2021 must be respected.

Scholarship amounts will be increased by 50% for periods spent abroad of no longer than 12 months. This period may be extended up to a maximum of 18 months for doctoral students under joint guidance or Double Degree programme with foreign institutions. This increase may also be granted to students who have been awarded positions without a scholarship. From the first year, each PhD student (with or without scholarship) is guaranteed a budget for research activities in Italy and abroad, for an amount not less than 10% of the annual amount of the study scholarship.

ARTICLE 10 - Fees for PhD Programmes, benefits and services

Fees for PhD programmes in "Clinical and experimental medicine (CEM)", "Health Innovative Products and Technologies (HIP-TECH)", "Molecular and regenerative medicine" and "Neurosciences" which must be paid in one instalment to the enrolment by those who enrol are € 180.48 (the amount of the payment slip that can be downloaded online includes the regional tax, the stamp duty and the insurance coverage with medical fault and contagion risk).

Fees for other PhD programmes which must be paid in one instalment to the enrolment by those who enrol are € 159.67 (the amount of the payment slip that can be downloaded online includes the regional tax, the stamp duty and the insurance coverage).

These fees will be entirely covered by the Emilia-Romagna Region, which will directly pay the University of Modena and Reggio Emilia on behalf of the students.

The student must make the payment of fees with the amount and in the manner and time allowed as indicated above by the call for regular enrolment in a PhD.

The University will only refund the money to the PhD student once it has received payment from the regional authority.

Should the amount paid by the regional authority be higher than the one that paid by the student, the remaining amount will be kept by the University to cover expenses related to the PhD Programme.

Should the regulations set for the “apprenticeship contract for advanced training and research” not be observed and the regional authority thus fail to cover the fees, the University will not refund students.

The amounts, and the deadlines for the contribution for the following years will be determined from year to year and will be notified approximately towards the end of July on the web page <https://www.unimore.it/en/education/doctoral-research-programmes>.

ARTICLE 11 - Rights and Responsibilities of PhD Students

PhD Programmes require a full-time and exclusive commitment. PhD students may accept forms of employment, pending authorization from the PhD Programme Academic Board, related to work activities useful for the acquisition of skills pertaining to the PhD research area, after evaluation of compatibility of those activities with the fruitful development of the educational, didactic and research activities of the doctoral programme. Research grants to PhD students without scholarships are allowed, provided the Academic Board deems the research area compatible with topic of the doctoral thesis.

PhD students are required, under penalty of exclusion, to perform the research projects assigned to them and to be involved in related study, further research, periods abroad, teaching, as well as any internships affiliated with public or private bodies, in accordance with the requirements set by the competent Academic Board.

The additional obligations and rights of PhD candidates, including cases of incompatibility, suspension of attendance requirements, and exclusion, as well as the

procedures for obtaining the title of PhD, are governed in accordance with the provisions referred to in Article 7 of the Regulations for PhD Programmes.

Enrolment in more than one degree programme (e.g., PhD programme and Master's or Bachelor's degree programme) is permitted in accordance with Law No. 33 of April 12th, 2022, and Ministerial Decree No. 930/2022, as specified at the following link: <https://www.unimore.it/en/education/enrolment-and-admission/concurrent-enrolment-two-courses-study>.

The joint attendance of the PhD programme and a medical specialisation school is allowed in compliance with the following general criteria:

a) compatibility, also in consideration of the distance between the seats, of the activities and commitment provided by the graduate school and the PhD programme, certified by the board of the medical specialisation school and by the PhD Academic Board;

b) incompatibility between the PhD scholarship and any remuneration, however denominated, received in relation to the activities of the specialisation school.

In cases of joint attendance referred to in this article, the request for reduction of doctoral activities is accepted by the Academic Board of the doctoral programme, after positive evaluation of the consistency of the research activities already carried out in the medical specialisation course, with the doctoral project. For the purposes of accepting the application referred to in this paragraph, the opinion of compatibility, expressed by the board of the specialisation school, of the doctoral project with the educational purposes of the graduate school itself is also required. If the application referred to in this paragraph is accepted, the PhD programme has a duration of no less than two years.

ARTICLE 12 – Public employees

In accordance with the law, and compatible with the administration's requirements, a public employee admitted to a PhD programme, upon request, is placed on special leave for study purposes without allowance for the duration of the programme and is entitled to a scholarship if the required conditions are met. In the event of admission to a PhD programme without a scholarship, or if the scholarship is renounced, the person on leave retains the salary, social security and pension benefits enjoyed by the public administration with which the employment relationship is established. If, following the award of the doctorate, the employment relationship with the public administration is terminated at the employee's request within the following two years, the sums paid pursuant to the second sentence shall be refunded.

A public employee who has already obtained a doctoral degree or has been enrolled on PhD programmes for at least one year, benefiting from the leave, shall not be entitled to extraordinary leave with or without pay.

The period of special leave is useful for the purposes of career progression, retirement and social security.

ARTICLE 13 – Awarding of the PhD

The PhD is awarded upon completion of the PhD Programme, when students pass their final examination that consists in the presentation of a PhD Thesis on original research, carried out meticulously and where results are adequately and scientifically relevant. Should the assessment be negative, the final examination cannot be repeated.

Public thesis defence will take place before an Examination Board appointed in compliance with the University PhD Research Programme Regulations.

The Rector awards the title of PhD. The issue of the above title is dependent upon the candidate's submission to the competent office of the copy of the final thesis in digital format, which will be guaranteed to be kept and publicly accessible in the special open access archive of the University, as well as to be deposited in the ministerial database, in compliance with the regulations in force concerning thesis embargo and copyright.

Upon completion of the PhD programme, graduates will be invited to fill out a "*Questionnaire on the opinions of programme attendees*" for the Alma Laurea database. This will enable the Alma Laurea Inter-University Consortium to monitor the training of doctoral students.

ARTICLE 14 – Handling of personal data

The University Administration, in accordance with EU Regulation 2016/679 and Legislative Decree 196/03, as amended by Legislative Decree 101/2018, will use the applicant's personal data solely for the fulfilment of the selection procedures and for administrative purposes.
